Let's Start!

Let's review!

Learning Outcome

Describe social, urban and environmental change in written and spoken situations according to work and social contexts.

Can Do Statements

- I can talk about what is being done or what has been done.
- I can speculate about the past.
- I can talk about what was done.

Ask your partner:

- What do you think would be the best part of being famous? The worst?
- If you could be a famous actor, musician or athlete, which one would you choose? Why?

Let's Explore!

Fame may **not be all it's cracked up to be***!

* If something is "not all it's cracked up to be", then it does not meet expectations.

Instructions: Read the text aloud.

It has been said that "money doesn't buy happiness." A good number of celebrated artists and thinkers might suggest that fame doesn't buy happiness either, and that had they known the costs of their stardom, they might have chosen a different career path altogether.

Some, like Luciano Pavarotti, have succeeded in putting their celebrity to good use. Pavarotti was lauded by the press for performing humanitarian concerts aimed at raising money for people in areas of conflict. For others, however, fame was more of a curse than a blessing.

Pioneers such as surrealist painter Salvador Dali were labeled eccentrics and received more than their share of bad press. Trailblazing mathematician Ada Lovelace was hounded by rumor and scandal throughout her entire career as a female in a male-dominated profession. Even venerated celebrities are not immune. In fact, the bigger the star, the more sensationalized the rumors seem to be. To this day, an urban legend is being circulated about the burial of Walt Disney, who many people believe lies frozen under a ride at Disneyland. These libelous attacks must have been a constant source of worry for the celebrities and their families.

And these examples don't even represent the worst case scenario. In some cases, fame may have directly led to an untimely death. It has been speculated that Wolfgang Mozart could have been murdered by a jealous counterpart, and Harry Houdini is said to have been killed by an overzealous fan, who gave him a punch to the stomach.

Let's Practice!

How have these celebrities been treated*?

**treated*: How you "treat" someone refers to the behavior you display towards them.

Instructions: Use the words from the box to correctly complete the sentence.

Word Bank

has he been / has been said / is being circulated / to have been killed / has been speculated

1. It _____ that "money doesn't buy happiness."
2. To this day, an urban legend _____ about the burial of Walt Disney.
3. It _____ that Wolfgang Mozart was murdered.
4. Harry Houdini is said _____ by an overzealous fan.
5. _____ interviewed by the press?

Let's Practice!

Let's find out what was said and done.

Instructions: Read the question. Tick the correct word to complete the sentence. Complete a row of 3 squares horizontally, vertically or diagonally to win.

1. Pavarotti was _____ by the press for performing humanitarian concerts.
2. Ada Lovelace was hounded by _____ and scandal.
3. The most beautiful pieces were written by the _____ composer.
4. Many of our greatest works _____ painted by surrealists.
5. Were the works copied by _____?

lauded	stardom	press
counterfeiters		rumor
were	was	venerated

Extension Activity

Create a list of the pros and cons of being famous. Then expand this list into a written argument.

Instructions: Complete the following steps. Fill in the Self-Assessment.

- Make a chart with the word "fame" at the top.
- Create two subheadings, pros and cons.
- Using point form, list the pros and cons of being famous.
- Based on these notes, create a paragraph weighing both options.
- In your conclusion, state whether or not you would like to be famous.

Self-Assessment

Yes No

I use vocabulary about fame to write about the pros and cons of being famous.

☐ ☐

I expand my notes into complete sentences.

☐ ☐

I use *must have*, *may have*, *might have*, and *could have* to speculate about past, present, and future situations.

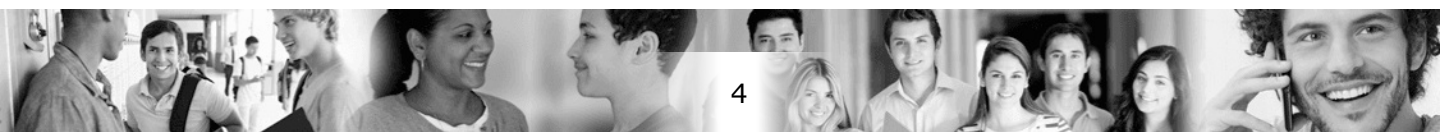

☐ ☐

I express my conclusions in a written paragraph.

☐ ☐

Target Words

- stardom** (noun): the state of being famous
e.g. Many celebrities could not have guessed the cost of their stardom.
- career path** (noun): the way you progress in your work, within a job or a series of jobs
e.g. He shouldn't have chosen such a challenging career path.
- humanitarian** (adjective): connected to improving human welfare or reducing suffering
e.g. Pavarotti was lauded by the press for performing humanitarian concerts.
- bad press** (noun): when negative things are published about someone or something in a newspaper or on television
e.g. Salvador Dali was labeled an eccentric and received more than his share of bad press.
- trailblazing** (adjective): being the first person to do something or go somewhere
e.g. Ada Lovelace was a trailblazing mathematician.
- rumor** (noun): a story which is uncertain or untrue
e.g. She was hounded by rumor throughout her career.
- scandal** (noun): public outrage caused by an illegal or immoral action
e.g. Her outspoken attitude led to a few scandals.
- venerated** (adjective): extremely respected or honored
e.g. Even venerated celebrities are not immune.
- sensationalized** (adjective): embellished in order to make more exciting but less accurate
e.g. The bigger the star, the more sensationalized the rumors seem to be.

Learning Points

Passive Forms: Present Continuous, Present Perfect and Simple Past

You use an active structure when you want the 'doer' of the action to be the subject.

You use a passive structure when you want the 'receiver' of the action to be the subject.

You often choose the passive form when you want to talk about an action but are not so interested in saying who or what does/did it. Passives without *agents* (the doers) are common in biographies.

You use the Simple Past to talk about a finished action at a particular time in the past.

*The press **lauded** Pavarotti for performing humanitarian concerts.*

You use the Present Continuous to talk about an action that is happening at the time of speaking. The action or event is in progress.

*To this day, people **are circulating** an urban legend about the burial of Walt Disney.*

You use the Present Perfect to talk about a finished action or event with present consequences. There is a connection between what happened in the past and the present.

*People **have said** that money doesn't buy happiness.*

Name	Structure	Example
Simple Past	was/were + past participle	<i>Pavarotti was lauded by the press for performing humanitarian concerts.</i>
Present Continuous	am/are/is + being + past participle	<i>To this day, an urban legend is being circulated about the burial of Walt Disney.</i>
Present Perfect	have/has + been + past participle	<i>It has been said that "money doesn't buy happiness."</i>

Examples:

- *It has been said that "money doesn't buy happiness."*
- *Pavarotti was lauded by the press for performing humanitarian concerts aimed at raising money for people in areas of conflict.*
- *Trailblazing mathematician Ada Lovelace was hounded by rumor and scandal throughout her entire career as a female in a male-dominated profession.*
- *To this day, an urban legend is being circulated about the burial of Walt Disney, who many people believe lies frozen under a ride at Disneyland.*

Learning Points

- *It has been speculated that Wolfgang Amadeus Mozart could have been murdered by a jealous counterpart, and Harry Houdini is said to have been killed by an overzealous fan, who gave him a punch to the stomach.*

Speculation About the Past

You can use modals to talk about degrees of certainty and speculate about things in the past.

You use them to describe what is definite, probable, possible, or impossible from the speaker's point of view.

You can use *must*, *may*, *might*, and *could* to describe degrees of certainty.

You can use modals with the Present Perfect to talk about the possibility of a past event that is not clear in the present context.

Example:

*These libelous attacks **must have been** a constant source of worry for the celebrities and their families.*

Look at the chart for the meanings of modals when speculating about the past:

Modal Phrase	Meaning
Must have	It is very likely.
May have Might have Could have	It is possible.

- *May have* has a slightly stronger meaning than *might have* or *could have*.
- You can add **not** to make a negative speculation (It **may not have been** true).

Examples:

- *In some cases, fame may have directly led to an untimely death.*
- *It has been speculated that Wolfgang Mozart could have been murdered by a jealous counterpart.*
- *These libelous attacks must have been a constant source of worry for the celebrities and their families.*
- *A good number of celebrated artists and thinkers might suggest that fame doesn't buy happiness either, and that had they known the costs of their stardom, they might have chosen a different career path altogether.*
